Silver title vacant

The WBC is not only the first but the only boxing sanctioning organization that has instituted the "prebouts requirements rules" (medicals and safetyweigh-ins) that aim to protect the health and the welfare of all professional boxers during and after their professional careers.

The prebout weigh-ins are to be done:

30 Days before the championship Not more than 10% of the official limit

14 Days Not more than 5%

7 Days Not more than 3%

On these specific days before the official weigh-in.

The above safety control reductions is so that we can safely monitor and control the dehydration and rehydration process of the boxers so that they enter the ring in as safe and healthy condition as possible.

The WBC prebout medical requirements are:

- "Complete Physical/Medical Examination"--- Valid for one year.
- "MRI" -"Without contrast" valid for 3 years.
- "Ophthalmological" (eye) exam done by an Ophthalmologist--Valid for one year.

- d. "HIV 1 & 2" and "Hepatitis B&C Surface Antigen" examinations – both valid for 6 months.
- e. Boxers 35 years and over also need to get EKG and Neurological clearances.
- f. Boxers 40 years and over needs to get an MRA Clearance.

All boxers Competing for a WBC (Male-Female& International) Championship MUST supply a urine sample for prohibited drug testing.

Personal thoughts

A tough time with the pandemic has not ended, yet.

But, we have still been able to stage a good WBC International activity if we

consider all damages and difficulties caused by the virus.

Several championships were already scheduled and dated, when suddenly called off due to the harmful pandemic's outbreak .

We still had a solid closure for a doomed 2020 year.

My personal affections last year were

diabolically touched with the untimely death of my golden and beloved wife Marina, after forty years of mutual love.

In difficult times we have to grit our teeth until the bad moment is over.

The virus has still been biking many parts of the world and all activities have been seriously jeopardized, not only boxing.

The lockdown is still a possibility in several countries, but it seems now that the solution to the problem is near to happen.

We at the WBC are indomitable fighters.

We will confirm our projects without hesitation.

Difficult times ... but we'll make it. The Committee has been very active and has never spared any hope, or let alone any effort to have a constant activity back in place.
